The Kuda Giri wreck is a fishing trawler that lies upright on the sandy bottom near a small, almost circular reef. The depth ranges from 20 to 35 meters. At the wreck, you'll find wobblerfish, many different species of nudibranchs, and plenty of schooling fish, making it a very interesting spot for photographers as well.

Description

The Kuda Giri wreck is a fishing trawler that lies upright on the sandy bottom near a small, almost circular reef. The depth ranges from 20 to 35 meters. At the wreck, you'll find wobblerfish, many different species of nudibranchs, and plenty of schooling fish, making it a very interesting spot for photographers as well. If the current is light, you can then swim around the small Giri (reef).
