Description

The Nassimo Thila is approximately 200 meters long and begins at a depth of about 10 meters. Many consider this thila to be one of the best in the entire North Male Atoll. Overhangs covered in turquoise-blue soft corals, offshore coral towers with beautiful growth, and an enormous variety of fish make this thila something truly special. Horse mackerel hunt on the reef top, whitetip reef sharks frolic around the reef, barracudas patrol, and schools of bigeye mackerel swim through the blue water—the Maldives just as you'd imagine them!
